PROFESSIONAL SUMMARY

Software engineer with 7+ years of experience building high-quality, performant web applications. Deep expertise in React and TypeScript, with a proven track record of delivering complex user-facing products in fast-paced, cross-functional teams. Passionate about clean architecture, developer experience, and creating interfaces that users love.

TECHNICAL SKILLS

Core Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3 / SASS
Frameworks & Libraries	React, Redux, Redux-Saga, Zustand, Jotai, Node.js, Express.js, Material UI, Styled Components, Recharts
Testing & Quality	Jest, React Testing Library, Cypress, Selenium, TestCafe, Playwright
DevOps & Tooling	Git, Docker, Jenkins, Webpack, Gulp, Netlify, VS Code, Linux
Other	REST APIs, OAuth, JWT, MongoDB, MySQL, JIRA, Adobe XD
AI Tools & Workflow	Claude Code, GitHub Copilot, Agent-Driven Development, Spec-Driven Development

WORK EXPERIENCE

Software Engineer — Dynatrace GmbH, Vienna Mar 2022 – Present

- Design and develop scalable user-facing features using React and TypeScript within an enterprise-grade observability platform.
- Drive CI/CD adoption, reducing deployment cycle times and increasing release reliability across multiple frontend teams.
- Evaluate and introduce new tooling and methodologies—including component libraries and testing frameworks—that improved team velocity.
- Collaborate closely with product, design, and backend engineers in cross-functional squads to deliver high-quality features on schedule.

Software Engineer — Avisio GmbH Nov 2020 – Feb 2022

- Built a supply-management web application for the hospitality sector from the ground up using React, TypeScript, and Styled Components.
- Led the frontend team: coordinated task planning, code reviews, and mentoring of junior developers.
- Drove API design discussions with backend engineers to ensure clean, maintainable data contracts.

Frontend Developer — Swilox GmbH, Linz Jun 2019 – Oct 2020

- Developed and maintained a client-management dashboard using React, TypeScript, and Material UI.
- Engineered a passwordless authentication flow in React, improving user onboarding and security posture.
- Built a vanilla JavaScript SDK for seamless login integration into third-party e-commerce platforms.
- Expanded test coverage using Selenium, reducing regression bugs.

Master Thesis Engineer — Siemens AG, Munich Aug 2017 – Apr 2018

- Designed and implemented a framework for rapid IoT application development using TypeScript, Node.js, REST APIs, and Node-WebSocket.

Working Student – IoT Engineering — Siemens AG, Munich Jun 2017 – Aug 2017

- Developed IoT applications and an internal dashboard using React and Node.js.

EDUCATION

M.Sc. Computer Science 2015 – 2018

University of Passau, Germany · Focus: IT Security & Information and Communication Systems

B.Tech. Information Technology 2010 – 2014

Maharshi Dayanand University, India · Focus: Computer Science & Logic

LANGUAGES

English — Fluent German — Basic (A2) Hindi — Native
